CLOUDSPITAL HEALTH ATM RANGE

Health ATMs and the AI Health Pod.

Ten Health ATM models and a private walk-in booth, from a 48-test entry kiosk to the complete 170-test check-up. Every one gives a guided check-up, a doctor on video and a report in minutes.

11	**48 to 170**	**1,500+**	**5 years**
models: ten Health ATMs and the AI Health Pod	tests and parameters, by model	units in government installations, pan-India	comprehensive on-site warranty

CPL-HA-01 TO 06 | CPL-HA-07 TO 10 | CPL-HA-AIPOD

Made in India
Built at Greater Noida West, 300 units a month.

One platform
The same software, report and HealthMatrix app on every model.

Delivered in 10 days
Installed within 7 days of delivery, operators trained on site.

01 ABOUT CLOUDSPITAL

Preventive care, as easy to reach as an ATM.

Cloudspital Private Limited designs and manufactures AI Health ATMs in India. Founded in Patna in 2020, it builds the CPL-HA range at Greater Noida West, supports every kiosk with its own service team, and built the 39-unit tele-PICU network of AIIMS Patna.

16 lakh+
screenings recorded on our Health ATMs and kiosks

1,500+
units in government installations, under 12+ government contracts

19 + states
and 6+ countries, through our own teams and authorised partners

39
units in the AIIMS Patna tele-PICU network

OUR MISSION
To bring a complete check-up, a doctor on video and a report in hand to the places where people live, work and study.

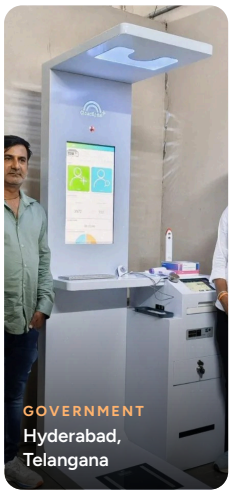

OUR VISION
Preventive care as easy to reach as an ATM, in every district of India and in every market we serve.

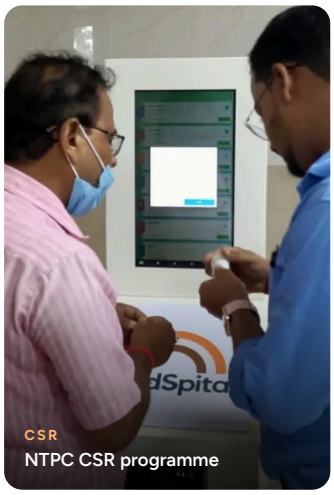

HOW WE WORK
Medical-grade devices, our own software and our own service team. Technology informs; doctors decide.

Already at work across India.

Governments, public-sector companies, hospitals and enterprises run Cloudspital programmes.

DPIIT-recognised startup
Government of India

Startup Bihar
Seed and post-seed fund

AIC Bihar Vidyapeeth
Incubatee, with NITI Aayog recognition

Azadi Ka Amrit Mahotsav
One of 20 selected startups

GeM OEM vendor
Government e-Marketplace

Class-I local supplier
Make in India public procurement

ISO 13485:2016
Quality management for medical devices

Made in India
Greater Noida West; Global Operations HQ in Dubai

02 ONE PLATFORM

One platform behind every Health ATM.

Every model runs Cloudspital's own software. It guides each person through the check-up, reads the connected devices, adds eye and hearing tests and ends with a Smart Health Report; a doctor can join on video.

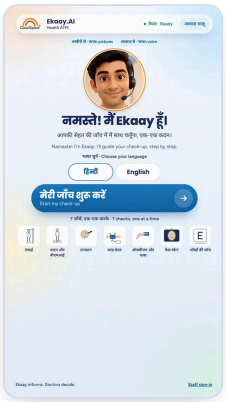

01
Check in
On the touchscreen, step by step in Hindi or English.

02
Measure
Vitals and body composition, with a guiding voice.

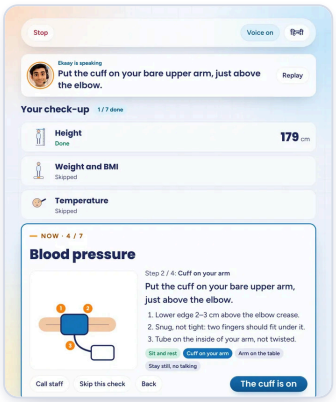

03
Test
Finger-prick blood tests, urine and rapid tests; more on higher models.

04
Consult
A verified doctor on video when needed, with an e-prescription.

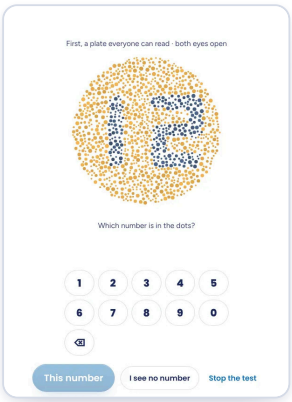

05
Report
A Smart Health Report in minutes, printed and saved to HealthMatrix.

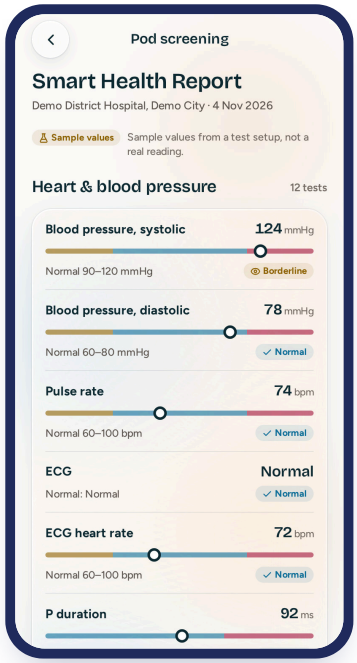

DEMO DATA **The guided check-up,** in Hindi or English.

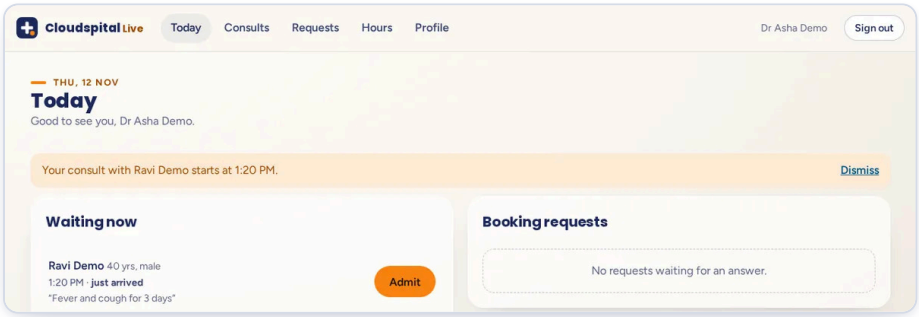

DEMO DATA **Step by step,** with pictures and a guiding voice.

DEMO DATA **The colour vision test,** one of three eye tests.

DEMO DATA **The report in HealthMatrix,** with sample values.

DEMO DATA **Cloudspital Live,** the doctors' console for video consultations.

Smart Health Report
Each reading with its status and healthy range, printed at the kiosk.

Into HealthMatrix
A QR or code saves the report to the person's app, only when they confirm.

Doctors on video
Verified doctors through Cloudspital Live, with e-prescriptions signed by PIN.

For organisations
A partner console with group totals, never anyone's own results.

Hosted in India. Records stay on Cloudspital's servers in India, built for India's Digital Personal Data Protection Act, 2023. Ekaay informs; doctors decide. Screens are from the kiosk and the apps, with demo data.

The Health ATM software
Scan, or visit
cloudspital.ai/health-atm-software

03 THE RANGE AT A GLANCE

Eleven models, one platform.

Each model adds tests to the one before it, so a site can start with what it needs today and move up later. The AI Health Pod runs the complete Arc Max menu inside a private booth.

CPL-HA-01 to 03

Primary care and camps

PHCs, schools, workplaces and screening camps; add a resting ECG or a lipid profile.

CPL-HA-04 and 05

Diabetes, ENT and antenatal

HbA1c and ENT cameras; then spirometry and a foetal Doppler.

CPL-HA-06 to 08

Hospitals and districts

Thyroid, vitamin D and cardiac markers; a blood count, sickle cell, liver and kidney.

CPL-HA-09, 10 and Pod

Busy and flagship sites

The face scan, the complete 170 tests, or all of it in a private booth.

HEALTH ATM · 1 OF 10

CPL-HA-01

Entry Health ATM

Vitals, body composition, blood and urine tests and 14 rapid tests, for PHCs, schools, workplaces and health camps.

48	4	10
tests and parameters	clinical panels	devices

INCLUDES ON THIS MODEL

The base menu of vitals and body composition, finger-prick blood tests, urine analysis and 14 rapid tests.

MADE FOR

PHCs and sub-centres, schools, workplaces and health camps.

What it tests

48 tests in 4 panels

Vitals and body composition 19

Vision test (chart-based app), Body temperature, Blood pressure, systolic, Blood pressure, diastolic, SpO2 (oxygen saturation), Pulse rate, Height (ultrasonic stadiometer), Body weight, Body mass index (BMI), Body fat percentage, Lean body weight, Weight without fat, Muscle mass, Bone mass, Body water percentage, Visceral fat rating, Basal metabolic rate, Body age, Ideal body weight

Blood tests, finger prick 4

Blood glucose (fasting, PP or random), Haemoglobin (Hb), Uric acid, Total cholesterol

Urine analysis 11

Urine glucose, Protein (albumin), pH, Specific gravity, Ketone bodies, Blood / occult blood, Bilirubin (urine), Urobilinogen, Nitrite, Leukocytes, Ascorbic acid

Rapid diagnostic tests 14

Pregnancy (urine hCG), HIV I and II, Hepatitis B (HBsAg), Hepatitis C (HCV), Syphilis, Malaria (Pf / Pv), Dengue NS1 antigen, Dengue IgG / IgM, Typhoid IgG / IgM, Chikungunya IgM, Leptospira IgG / IgM, Filaria antigen, H. pylori antibody, Faecal occult blood

Devices

10 built in

- 24-inch touchscreen
- Pulse oximeter
- Body composition platform
- Multi-parameter blood analyser
- AI rapid-test reader
- Blood pressure monitor (NIBP)
- Infrared thermometer
- Ultrasonic height sensor
- Automated urine analyser
- HD camera and report printer

Full test menu online

Scan, or visit
cloudspital.ai/products/cpl-ha-01

Need more tests?

CPL-HA-02 adds a 12-lead resting ECG, for 49 tests. See page 6.

HEALTH ATM · 2 OF 10

CPL-HA-02

Health ATM with 12-lead ECG

The base screening menu plus a 12-lead resting ECG with automated interpretation.

49
tests and parameters

5
clinical panels

11
devices

NEW ON THIS MODEL

A 12-lead resting ECG with automated interpretation.

MADE FOR

OPDs, workplaces and screening camps that need a resting ECG.

What it tests

49 tests in 5 panels

Vitals and body composition 19
Vision test (chart-based app), Body temperature, Blood pressure, systolic, Blood pressure, diastolic, SpO2 (oxygen saturation), Pulse rate, Height (ultrasonic stadiometer), Body weight, Body mass index (BMI), Body fat percentage, Lean body weight, Weight without fat, Muscle mass, Bone mass, Body water percentage, Visceral fat rating, Basal metabolic rate, Body age, Ideal body weight

Blood tests, finger prick 4
Blood glucose (fasting, PP or random), Haemoglobin (Hb), Uric acid, Total cholesterol

Urine analysis 11
Urine glucose, Protein (albumin), pH, Specific gravity, Ketone bodies, Blood / occult blood, Bilirubin (urine), Urobilinogen, Nitrite, Leukocytes, Ascorbic acid

Rapid diagnostic tests 14
Pregnancy (urine hCG), HIV I and II, Hepatitis B (HBsAg), Hepatitis C (HCV), Syphilis, Malaria (Pf / Pv), Dengue NS1 antigen, Dengue IgG / IgM, Typhoid IgG / IgM, Chikungunya IgM, Leptospira IgG / IgM, Filaria antigen, H. pylori antibody, Faecal occult blood

12-lead ECG 1 NEW
12-lead ECG, auto-interpreted

Devices

11 built in

- 24-inch touchscreen
- Pulse oximeter
- Body composition platform
- Multi-parameter blood analyser
- AI rapid-test reader
- 12-lead ECG NEW
- Blood pressure monitor (NIBP)
- Infrared thermometer
- Ultrasonic height sensor
- Automated urine analyser
- HD camera and report printer

cloudspital.ai/products/cpl-ha-02

Need more tests?

CPL-HA-03 adds a full lipid profile, for 54 tests.
See page 7.

HEALTH ATM · 3 OF 10

CPL-HA-03

Check-up kiosk with lipid profile

Adds a full lipid profile from a single finger prick, for cardiac and NCD risk screening.

54	6	12
tests and parameters	clinical panels	devices

NEW ON THIS MODEL

A lipid profile: HDL, LDL, triglycerides, non-HDL cholesterol and the TC/HDL ratio.

MADE FOR

NCD and heart-risk screening programmes and corporate check-ups.

What it tests

54 tests in 6 panels

Vitals and body composition 19

Vision test (chart-based app), Body temperature, Blood pressure, systolic, Blood pressure, diastolic, SpO2 (oxygen saturation), Pulse rate, Height (ultrasonic stadiometer), Body weight, Body mass index (BMI), Body fat percentage, Lean body weight, Weight without fat, Muscle mass, Bone mass, Body water percentage, Visceral fat rating, Basal metabolic rate, Body age, Ideal body weight

Blood tests, finger prick 4

Blood glucose (fasting, PP or random), Haemoglobin (Hb), Uric acid, Total cholesterol

Urine analysis 11

Urine glucose, Protein (albumin), pH, Specific gravity, Ketone bodies, Blood / occult blood, Bilirubin (urine), Urobilinogen, Nitrite, Leukocytes, Ascorbic acid

Rapid diagnostic tests 14

Pregnancy (urine hCG), HIV I and II, Hepatitis B (HBsAg), Hepatitis C (HCV), Syphilis, Malaria (Pf / Pv), Dengue NS1 antigen, Dengue IgG / IgM, Typhoid IgG / IgM, Chikungunya IgM, Leptospira IgG / IgM, Filaria antigen, H. pylori antibody, Faecal occult blood

12-lead ECG 1

12-lead ECG, auto-interpreted

Lipid profile and HbA1c 5 NEW

HDL cholesterol, LDL cholesterol, Triglycerides, Non-HDL cholesterol, TC / HDL ratio

Devices

12 built in

- 24-inch touchscreen
- Pulse oximeter
- Body composition platform
- Multi-parameter blood analyser
- AI rapid-test reader
- 12-lead ECG
- Blood pressure monitor (NIBP)
- Infrared thermometer
- Ultrasonic height sensor
- Automated urine analyser
- HD camera and report printer
- Lipid analyser NEW

Need more tests?

CPL-HA-04 adds HbA1c and ENT, skin and oral cameras, for 60 tests. See page 8.

HEALTH ATM · 4 OF 10

CPL-HA-04

Health ATM with HbA1c and ENT camera

Adds HbA1c for diabetes care, plus digital ENT, skin and oral examination cameras.

60	7	14
tests and parameters	clinical panels	devices

NEW ON THIS MODEL

HbA1c, plus ear, nose, throat, skin and oral imaging.

MADE FOR

Diabetes care, pharmacies and clinics, and ENT, skin and oral screening.

What it tests

60 tests in 7 panels

Vitals and body composition 19

Vision test (chart-based app), Body temperature, Blood pressure, systolic, Blood pressure, diastolic, SpO2 (oxygen saturation), Pulse rate, Height (ultrasonic stadiometer), Body weight, Body mass index (BMI), Body fat percentage, Lean body weight, Weight without fat, Muscle mass, Bone mass, Body water percentage, Visceral fat rating, Basal metabolic rate, Body age, Ideal body weight

Urine analysis 11

Urine glucose, Protein (albumin), pH, Specific gravity, Ketone bodies, Blood / occult blood, Bilirubin (urine), Urobilinogen, Nitrite, Leukocytes, Ascorbic acid

12-lead ECG 1

12-lead ECG, auto-interpreted

ENT, skin and oral imaging 5 NEW

Ear inspection (otoscopy), Nose inspection, Throat inspection, Skin and hairline (dermatoscopy), Intraoral inspection

Blood tests, finger prick 4

Blood glucose (fasting, PP or random), Haemoglobin (Hb), Uric acid, Total cholesterol

Rapid diagnostic tests 14

Pregnancy (urine hCG), HIV I and II, Hepatitis B (HBsAg), Hepatitis C (HCV), Syphilis, Malaria (Pf / Pv), Dengue NS1 antigen, Dengue IgG / IgM, Typhoid IgG / IgM, Chikungunya IgM, Leptospira IgG / IgM, Filaria antigen, H. pylori antibody, Faecal occult blood

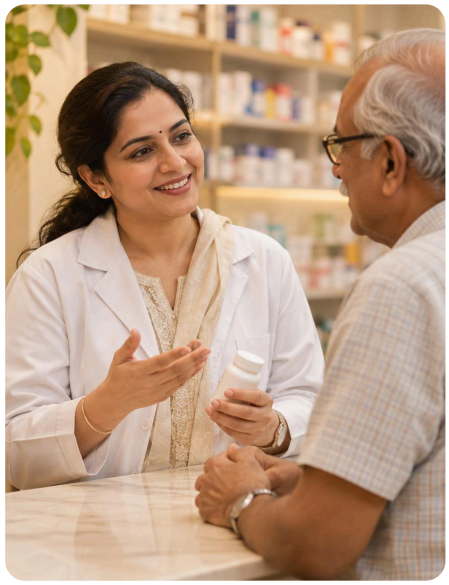

Lipid profile and HbA1c 6 NEW

HDL cholesterol, LDL cholesterol, Triglycerides, Non-HDL cholesterol, TC / HDL ratio, HbA1c (glycated haemoglobin)

Devices

14 built in

- 24-inch touchscreen
- Pulse oximeter
- Body composition platform
- Multi-parameter blood analyser
- AI rapid-test reader
- 12-lead ECG
- HbA1c analyser NEW
- Blood pressure monitor (NIBP)
- Infrared thermometer
- Ultrasonic height sensor
- Automated urine analyser
- HD camera and report printer
- Lipid analyser
- Otoscope, dermatoscope and intraoral camera NEW

Need more tests?

CPL-HA-05 adds spirometry and a foetal Doppler, for 88 tests. See page 9.

HEALTH ATM · 5 OF 10

CPL-HA-05

Health ATM with spirometer and foetal Doppler

Adds a spirometer with 27 lung-function parameters and a foetal Doppler for antenatal care.

88	9	16
tests and parameters	clinical panels	devices

NEW ON THIS MODEL

Spirometry with 27 lung-function parameters, and a foetal Doppler.

MADE FOR

Antenatal care, and lung-function screening at CHCs and industrial sites.

What it tests

88 tests in 9 panels

- **Vitals and body composition 19** — Contact sensors, bio-impedance platform, ultrasonic stadiometer
- **Urine analysis 11** — 11-parameter reagent strip, automated reader
- **12-lead ECG 1** — Resting ECG with automated interpretation
- **ENT, skin and oral imaging 5** — Digital otoscope, dermatoscope and intraoral camera
- **Spirometry (lung function) 27** NEW — Digital spirometer
- **Blood tests, finger prick 4** — Single-parameter strips, finger prick
- **Rapid diagnostic tests 14** — Test cassettes with AI-assisted reading
- **Lipid profile and HbA1c 6** — Point-of-care analyser, finger prick
- **Foetal Doppler 1** NEW — Foetal Doppler probe

Devices

16 built in

- 24-inch touchscreen
- Pulse oximeter
- Body composition platform
- Multi-parameter blood analyser
- AI rapid-test reader
- 12-lead ECG
- HbA1c analyser
- Foetal Doppler NEW
- Blood pressure monitor (NIBP)
- Infrared thermometer
- Ultrasonic height sensor
- Automated urine analyser
- HD camera and report printer
- Lipid analyser
- Otoscope, dermatoscope and intraoral camera
- Spirometer NEW

Need more tests?

CPL-HA-07 adds a complete blood count and sickle cell screening, for 121 tests. See page 11.

HEALTH ATM · 7 OF 10

CPL-HA-07

Health ATM with CBC and sickle cell screening

Adds a complete blood count and sickle cell screening to the full immunoassay menu.

121	14	19
tests and parameters	clinical panels	devices

NEW ON THIS MODEL

A complete blood count and sickle cell screening.

MADE FOR

Anaemia and sickle cell screening programmes, and district hospitals.

What it tests

121 tests in 14 panels

- Vitals and body composition 19
- Urine analysis 11
- 12-lead ECG 1
- ENT, skin and oral imaging 5
- Spirometry (lung function) 27
- Cardiac and inflammatory markers 9
- Complete blood count (CBC) 14 NEW
- Blood tests, finger prick 4
- Rapid diagnostic tests 14
- Lipid profile and HbA1c 6
- Foetal Doppler 1
- Thyroid, vitamin D and hormones 7
- SARS-CoV-2 tests 2
- Sickle cell screening 1 NEW

Devices

19 built in

- 24-inch touchscreen
- Pulse oximeter
- Body composition platform
- Multi-parameter blood analyser
- AI rapid-test reader
- 12-lead ECG
- HbA1c analyser
- Foetal Doppler
- Fluorescence immunoassay analyser
- Haemoglobin variant analyser NEW
- Blood pressure monitor (NIBP)
- Infrared thermometer
- Ultrasonic height sensor
- Automated urine analyser
- HD camera and report printer
- Lipid analyser
- Otoscope, dermatoscope and intraoral camera
- Spirometer
- Haematology analyser NEW

Need more tests?

CPL-HA-09 adds a contactless AI face scan, for 163 tests. See page 13.

HEALTH ATM · 9 OF 10

CPL-HA-09

AI face scan Health ATM

Adds a 30-second contactless AI face scan: heart rate, breathing rate, heart-rate variability and more.

163	17	21
tests and parameters	clinical panels	devices

NEW ON THIS MODEL

A 30-second contactless AI face scan of wellness indices, not a diagnosis.

MADE FOR

Busy sites that want a contactless AI face scan alongside lab tests.

What it tests

163 tests in 17 panels

- Vitals and body composition 19
- Urine analysis 11
- 12-lead ECG 1
- ENT, skin and oral imaging 5
- Spirometry (lung function) 27
- Cardiac and inflammatory markers 9
- Complete blood count (CBC) 14
- Liver function (LFT) 8
- AI face scan NEW
  Contactless, 30 seconds; wellness indices, not a diagnosis
- Blood tests, finger prick 4
- Rapid diagnostic tests 14
- Lipid profile and HbA1c 6
- Foetal Doppler 1
- Thyroid, vitamin D and hormones 7
- SARS-CoV-2 tests 2
- Sickle cell screening 1
- Kidney function (KFT) 6

Devices

21 built in

- 24-inch touchscreen
- Pulse oximeter
- Body composition platform
- Multi-parameter blood analyser
- AI rapid-test reader
- 12-lead ECG
- HbA1c analyser
- Foetal Doppler
- Fluorescence immunoassay analyser
- Haemoglobin variant analyser
- AI face-scan (rPPG) engine NEW
- Blood pressure monitor (NIBP)

Prefer a kiosk?

Arc Max (CPL-HA-10) runs the same 170 tests as a floor-standing kiosk. See page 14.

04 SERVICE AND ORDERING

Delivered in 10 days. Supported for 5 years.

Every Health ATM and AI Health Pod comes with a 5-year comprehensive on-site warranty from commissioning, and our own service team behind it.

What comes with it

- Health ATMs delivered fully assembled, in a wooden crate with foam protection
- Installed and commissioned within 7 days of delivery, every test shown live
- Operators trained on site in Hindi and English, with manuals and SOPs
- A starter stock of strips, cassettes and reagents

What the warranty covers

- All spares, parts and labour, calibration and software updates
- Preventive maintenance every quarter
- 95% quarterly uptime, 24-hour response and 72-hour on-site resolution
- Spares and service for 7 years; CAMC after the warranty

01
Tell us your site
The tests you need and how many kiosks. A site needs floor space, a 230 V power point, Wi-Fi or 4G and an operator.

02
Get a proposal
The right model, its specifications and a quote.

03
Delivery and set-up
Delivery in 10 days, installation within 7, operators trained on site.

04
Five years of support
On-site warranty, maintenance every quarter and a 24-hour response.

Government buyers: Cloudspital is a GeM OEM vendor and a Class-I local supplier under Make in India.

Health Matrix

Kiosk images are illustrative, lifestyle photographs are AI-generated illustrations, installation photographs are from real sites and app screens use demo data. Tests vary by model and by the consumables in stock. Screening results support clinical decisions; diagnosis and treatment stay with qualified clinicians. HealthMatrix is by Cloudspital.
